Purchase of High-Pressure Flash Chromatography

Tender notice Ref. No. UoH/SC-AKS-CRG/2023/002902/2025-2026/1.OC dated on 14/10/2025

Sealed tenders are invited by the Dean, School of Chemistry, University of Hyderabad for the supply and installations of the items listed below from the manufacturers/supplier or the authorized dealers. The envelope should be duly super scribed with Tender details *i.e*. tender No. name with date. Decision of the Dean and the proposer to accept or reject any or all the bids without assigning any reason, will be final. Sealed bids should reach the office of the Prof. A. K. Sahoo, School of Chemistry, University of Hyderabad, Gachibowli, Hyderabad 500046 on or before **31.03.2023.**

High-Pressure Flash Chromatography with all the accessories (To be installed in Room No: E102 at the School of Chemistry)

Technical specifications of some of the critical features of the items are specified in our University website and the details may be downloaded from;

http://www.uohyd.ac.in/tender.php

Dean and the proposer reserve the rights to alter/modify the specifications.

Specification for Flash Chromatography system

System should be able to purify the compound in Flash chromatography with high purity.

1. Solvent delivery system	i) Solvent Inlet-04 individual solvent lines / optional for 4 solvent lines **ii)** 2 separate pumps with each having 2 pistons is mandatory for high pressure mixing **iii)** Flow rate: 10-150 ml/min or above, system should be check valve free for limited find and less downtime. **iv)** Flow-accuracy-±1% or better **v)** Back pressure capacity- 1 Mpa. **vi)** 2 pumps and the mixing should be after the pumping of solvent from individual pump (high pressure mixing) for achieving better gradient in RP. **vii)** Pumping system: Pump with Presssure up to 15 Bar/217psi 5-200ml/min, 15-300ml/min, 30-400ml/min. Pump with Presssure up to 15 Bar/217psi ; 100-700ml/min
2. Detection system	i) VWD with single wavelength from 220-800 or better. ii) Should be LED based light source considering no lamp change due to limited fund iii) Wavelength Accuracy- 1 nm or High/ low mode preferable. iv) Peak Detection Modes- Slope, Threshold, or Time scale Fixed Wavelength UV Detector Prep UV-254 245nm, Detection Range 0.02-5.12 AUFS. Choice of Variable Single Wave length & Dual Wave length Detector Variable Wavelength UV detector. v) Detection Range 0.02-10.24 AUFS Variable Wavelength UV-VIS detector Model PrepUV/VIS -10/20 VH 220-800nm.
3. Sample Introduction	i) Option for sample loading both solid & liquid samples ii) De-contamination- Automatic cleaning of the fraction collector needle after every run iii) Should be able to push large amount of sample iv) Peak collection- Should be based on UV
4. Fraction Collection	i) There should be no loss of sample ii) Small integrated Fraction collector iii) Should be available in various fraction format iv) Upgradation of bigger size fraction collection racks at any point of time after the installation v) Bulk collection option
5. Chromatographic operations, data acquisition and transfer	i) System should have software control facility for the real time method parameter editing column size with media sensing for flash chromatography & fraction collection rack. Touch screen-based system controller for the operation, data acquisition, processing/transfer and routine maintenance will be preferred. ii) Preferably with touch screen not less than 14 inches or more iii) System should have processed data transfer facility preferably with USB port

	iv) Safety features- System should have safety feature e.g. over pressure v) System should be compatible to use the glass columns/steel columns vi) System should have the flexibility of using any make flash columns available in the market.

6. Safety Features	i) The system should have active pressure sensors, with automatic flow reduction and pressure monitor cut-off for safety. ii) If there is over pressure, the system should give an error message iii) Bubble solvent sensor (More precise)

Lodability should be in the range of 10 gm to 200gm of sample at one time in Flash chromatography.

Systems should be supplied with various columns (10gm,20gm,40gm). In silica with 1 pack each standard size. Reverse phase column of 25U should be provided 12gm,25gm and 50gm (1each).

1.5kg glass column and 50mm id SAC column with 650mm length should be included in the quote for scale up purification.

TLC Image reader (additional item).

Warranty

a. Three years' comprehensive warranty on all the instruments along with the software's and computer should be provided. 3 Years extra AMC should be included along with system.
b. The warranty shall cover the maintenance of the whole instrument modules including computer with software along with the replacement of spares and accessories during the warranty period.
c. The systems quote should have provisions for any further upgradations.
d. Suitable UPS for the system (30-60 minutes backup).
e. Any installations (Either in Institute/Pharma/CRO) of same brand reference with mobile number of users should be included in the bid. The performance certificates along with installation report from the users should be provided.
f. The software's quoted should be of latest and the vendor has to update them for at least 10 years.
g. If the system has to be relocated from one building/location to another building/location within the institute, the vendor has to be relocated it without any additional cost to the institute. Upon relocation, the IQ, OQ and PQ should be performed by the vendor without additional cost to the institute. Necessary tool kit for routine maintenance of the system should be provided.

Delivery: The lead-time for the delivery of the equipment should not be more than 4-6 weeks from the date of receipt of our purchase order/LC.

THE FOLLOWING CONDITIONS MUST STRICTLY BE MET WITH

TECHNICAL CONDITIONS:

1) Equipment offered should form a complete system. Plea that an item essentially required to form a complete system but not quoted since not specifically asked for in the Tender will not be accepted. An incomplete offer is liable to be rejected on that ground.
2) Bidder must indicate the year in which the model quoted by him was introduced in the market. Bidder must indicate whether he/she is willing to give an undertaking that all spare parts for the equipment quoted will be supplied as and when ordered for at least a period ***of 10 years from the***

date of supply and inability to supply the spares due of obsolescence of the equipment will not be pleaded.

3) Interested parties can separately quote the optional items required.
4) **Technical clarifications**: Technical clarifications if any, may be sought from us through our email akssc@uohyd.ac.in before submission of the formal quotation.
5) Spare parts, calibration samples to be supplied with the equipments.
6) Utility, pre-installation and installation requirements at the site shall be specified.
7) Support available for on-site service of equipment.
8) Details of the training to be given to the users shall be specified.
9) Optional items are to be quoted separately. Other local firms can quote their competitive prices for the optional items.

COMMERCIAL CONDITIONS:

10) **Prices:** Separately indicate, basic cost, taxes, duties, packing & forwarding charges, transport & Insurance charges etc. wherever applicable.
11) **Discount**: Educational discounts and concessions, if any, should be clearly indicated in the quotation. Ours is an educational institution, please quote your best lowest price.
12) **Validity:** The rates quoted should be firm till the date of satisfactory execution of the order.
13) **Payment:** Within 30 days after satisfactory supply and installation. Or made in two parts through Irrevocable Letter of Credit (L/C) through our Bankers M/s. State Bank of India; Commercial Branch, Hyderabad A.P., India., or by issuing the advanced foreign demand drafts as under:
L/C to be established for 100% of the order amount, of which 90% will be released on submission of the proof of dispatch (in original) and submission of the following shipping documents:
    a. Signed commercial invoice
    b. Original airway bill or House airway bill
    c. Packing list
    d. Test Certificate
    e. Supplier's certificate to the effect that the contents in the case/package are not less than those entered in the invoice and packing list and 10% on satisfactory installation of the equipment.

    A performance bank guarantee (PBG) obtained from nationalized bank for 3% of the order amount is to be furnished in the University's favor valid for the duration of the warranty period. Copy of the PBG will be sent along with the purchase order. Bank charges outside the country are to the account of beneficiary.

SPECIAL CONDITIONS:

14) **Delivery and Installation**: To be delivered at O/o the Dean, School of Chemistry, University of Hyderabad, Gachibowli, Hyderabad – 500046, Telangana, India. The system will be installed in the room no E102, School of Chemistry, University of Hyderabad.
15) **Agreement:** The foreign supplier or their Indian counterpart / agent have to enter into a purchase agreement with University of Hyderabad. The order will be executed only upon fulfilling the agreement. Copy of the agreement form will be sent along with the Purchase Order.
16) **Country of origin:** Tenderers should mention the country of origin and the country from which goods will be finally shipped, as these particulars are essential for establishment of LC, arranging insurance etc.
17) **Acceptance quotations**: The acceptance of the quotation(s) will rest solely with the University of Hyderabad who is not bound to accept the lowest quotation and reserves the right to reject or partially accept any or all the quotations received without assigning any reason.
18) **No Agency Commission**: If the quotation is not from the original manufacturer, the name and address of the manufacturer must be mentioned for each item. When a quotation is from the Indian representative, a letter of authorization from the Principals, to quote and negotiate on their behalf, is to be included. The University does not give agency commission.

19) The bidders must supply complete circuit diagrams, wiring diagrams, component layout diagrams, service manuals and component identification catalogue along with the equipment free of charge in case an order is placed with him.

20) **Liquidated Damages**: The foreign manufacturer/supplier or his Indian representative shall pay to the University @ 5% of the total cost of the system/equipment/material per week of delay in delivery of the system which in no case shall exceed 15% of the total cost. Liquidated Damages will not be applicable where the cause of delay is not attributable to the foreign manufacturer/supplier/representative.

GENERAL CONDITIONS:

21) **Arbitration:** Any dispute arising out of this contract shall be referred to the decision of the Arbitrator, who should be acceptable to both the parties, to be appointed by the Vice- Chancellor of the University. The decision of such Arbitrator shall be final and binding on both the parties. All disputes are to be settled within the jurisdiction of Hyderabad courts.

22) **Registration Nos.**: Firms should mention their GST registration numbers etc. on the quotations wherever applicable.

23) Bidders are requested to carefully go through the specifications given in the tender and quote only when they are sure they have the product specified to offer.

24) In case of proprietary item, enclose the relevant certificate.

25) If you are an authorized agent, please enclose the agencies certificate given by your principals.

26) **List of current users**: List of current users of the quoted model in India should be provided.

27) The University of Hyderabad, reserves the right to reject any/all quotations or accept any offer part thereof without giving any reasons. The decisions of the University of Hyderabad in this matter will be final.

28) University of Hyderabad will not hold any responsibility for postal/courier delay.

29) Send your tender(s)/quotation(s) only in sealed covers giving the enquiry reference number, date and address clearly written on the cover.

30) The technical and commercial bids will be evaluated and ranked. Based on the successful evaluation, negotiation with the suitable bid will be made and the contract will accordingly be given.

31) Optional items are to be quoted separately.

32) **Due date**: The sealed tenders/quotations complete in all respects ***will be accepted upto 4 PM on November 03, 2025*** in the ***Prof. A. K. Sahoo, School of Chemistry, University of Hyderabad, Gachibowli, Hyderabad-46***, India

33) **Opening of technical and financial bids**: The technical and financial bids will be ***opened on November 04, 2025*** University of Hyderabad, Gachibowli, Hyderabad – 500046, India.

34) **Invalid tenders**: Incomplete tenders and tenders received after the due date and sent through fax/email will be summarily rejected.

35) **The other terms & conditions**: Will be as per University of Hyderabad purchase procedure.
